

To Whom It May Concern,

Mr. Jeff Evans has served as Educational Consultant, Board Member, and Director of Learning at Bright Learners Private School, Dubai, UAE, for the last two years. During this time, he has been an integral collaborator, evaluator, and support system for teaching and learning at Bright Learners Private School.

Mr. Jeff has worked closely with the school's leadership team throughout the annual inspection process and the NEASC accreditation cycle. He consistently shared valuable insights into best teaching and learning practices, as well as strategies to make learning more visible for inspectors and visiting accreditation teams. His ability to collect and evaluate evidence of student learning, combined with his knack for analyzing and improving the way teachers give feedback, has been instrumental in driving instructional improvement.

Mr. Jeff has cultivated a strong working relationship with myself, the leadership team and staff, developing bonds of trust and mutual respect across the campus. As Principal, I have benefited greatly from his support in strategic decision-making, particularly in balancing Board expectations with realistic goal setting.

Mr. Jeff excels at providing guidance in teaching and learning through ongoing lesson observations, critical feedback, and reflective practices. He has also conducted several professional development sessions for my staff, all of which have been highly effective and well-received. His ability to coach teachers on evaluating student work and using data to inform instructional practices further demonstrates his commitment to fostering academic excellence.

I highly recommend Mr. Jeff Evans for any school leadership position, or advisory role, as his expertise, dedication, and collaborative approach have significantly contributed to the success of our school.

Sincerely,

Sulaiman Akbar Ed.S
