To Whom It May Concern,

I am pleased to provide this testimonial for Mr. Jeff Evans, Managing Director of Learning Key, in recognition of his contributions to Manor Hall International School in key areas of leadership, teacher development, and inspection preparation.

Jeff has played a significant role in fostering leadership growth within our school, equipping both senior and aspiring leaders with the skills needed to navigate challenges effectively. His emphasis on capacity-building has strengthened the overall leadership structure and promoted a culture of collaboration. Several of the teachers he trained stepped into middle leadership roles this academic year.

In the area of training and coaching, Jeff has delivered practical, targeted sessions that have empowered teachers to improve their practice. Jeff accompanied school leaders on classroom observations and provided mentoring and support. His support has enabled staff to adopt more effective strategies, directly increasing teacher effectiveness and thereby student progress and attainment.

Jeff has also provided valuable guidance in preparing us for both school inspection and accreditation, helping our team align priorities with the inspection framework and approach the process with clarity and focus. His insights have supported our efforts to drive ongoing improvements across the school.

I appreciate Jeff's contributions to Manor Hall and am confident his expertise will benefit any institution he works with.

Sincerely,

Michael Reule, Whole School Principal
