

Testimonial for Mr Jeff Evans - Learning Key Education, LLC

I am pleased to offer this testimonial for Jeff Evans, who served as the lead education consultant for Bright Capital Investments during our successful application to establish Reigate Grammar International School branches in the United Arab Emirates.

Throughout the project, Jeff demonstrated exceptional expertise in educational planning, strategic school development, and regulatory compliance. He took ownership of developing the complete Academic Plan for our new school application with our RGS education development team based in the UK. His ability to articulate a rigorous, future-focused academic vision, while aligning with both UAE regulatory expectations and Reigate's high standards, was central to the success of our submission (and an essential component of securing approval for this internationally renowned institution).

Jeff consistently delivered work of the highest quality, met demanding timelines, and approached every task with professionalism, insight, and dedication. His communication skills and deep understanding of curriculum design, assessment frameworks, and school operations were invaluable throughout the process.

Bright Capital Investments is highly satisfied with his contribution, and I would not hesitate to recommend Learning Key Education LLC for any future educational consultancy, school development, or academic strategy projects.

Mr Esref Temel

Owner, Bright Capital Investments
